Creative Kids

This arts and crafts class offers numerous benefits including fostering creativity, enhancing fine motor skills, and boosting self-esteem through hands-on crafting projects. By engaging in fun and interactive art activities, students also support the development of essential skills in reading, writing, and math. This class sparks curiosity and keeps students excited about learning, all while immersing them in a world of creativity and fun!

Ages 3.5-6.5yrs \$79.00

A \$15 material fee is payable to the instructor at the first class

Rhythm Explorers

Singing, moving, and dancing with songs and rhythm is just the start. We will explore musical instruments and the different sounds they make. The kids will make an instrument to play in class and take home. Music and movement significantly benefit children's development by enhancing cognitive skills, motor skills, social-emotional abilities, and creativity. Ultimately, this class can help set the foundation for your child's development and academic excellence, all while having fun!
